- (K) 1 - Canopy Pole
- (L) 1 - Canopy Frame
- (M) 1 - Fabric Canopy
- (N) 1 - Fabric Bumper
- (O) 1 - Fitted Fabric Sheet
- (P) 1 - Round Mattress Pad (*not shown*)

BEFORE YOU BEGIN ASSEMBLY:

Ensure that all the parts and hardware listed are included.
If anything is missing, please **DO NOT** return the product to the store.
Call or e-mail us for assistance. If you should have any questions at any time during assembly, we're here to help! Your satisfaction with our product is important to us. Please call or e-mail with any questions or feedback.

NOTE: Assemble the bassinet in the room where you intend to use it unless your doorways are wider than 33" (83.8 cm).

STEP 1: See PICTURE 1.

Take ONE END PANEL (A) and attach the TWO BOTTOM RAILS WITH GROOVES (B) using TWO WOOD SCREWS (D) (one screw for each rail).

Be sure the grooves are facing in so you can insert the bottom shelf later.

Attach the TWO TOP RAILS (C) to the same END PANEL (A) using TWO WOOD SCREWS (D) (one screw for each rail).

STEP 2: See PICTURE 2.

Take the BOTTOM SHELF (E) and slide it into the grooves on the BOTTOM RAILS (B) with the white side facing up.

Attach the SECOND END PANEL (A) to the BOTTOM RAILS (B) and TOP RAILS (C) using the remaining FOUR WOOD SCREWS (D) (one screw for each rail).

STEP 3: See **PICTURES 3A and 3B.**

Turn the bassinet stand upside down. Attach ONE CASTER WHEEL (F) to EACH LEG of the bassinet stand using ONE BOLT and ONE KNOB for each WHEEL. Tighten each wheel securely. The BASSINET STAND is now assembled.

STEP 4: See **PICTURE 4.**

Locate the FOUR T-NUTS (G) and FOUR 1¼” BOLTS (H) so you can bolt the ROUND BASSINET BODY (I) to the BASSINET STAND.

This step is easiest to do if you put the round bassinet body upside down on the floor, and then put the bassinet stand upside down on top of the bassinet body as shown in **PICTURE 4.**

Line up the four holes on the stand with the four holes on the body.

Insert the FOUR T-NUTS (G) into the four holes on the TOP RAILS (C). Tap into place with a hammer if needed.

Then insert the FOUR 1¼” BOLTS (H) through the four holes on the ROUND BASSINET BODY (I) and screw them into the FOUR T-NUTS (G).

STEP 5: See **PICTURE 5.**

With the bassinet in its correct, upright position, wrap the FABRIC SKIRT (J) around the LOWER rim of the ROUND BASSINET BODY (I) pressing the grip tape strips together as you go around

Begin at the rear center where the metal spindle is located.

The ends of the skirt will meet at the starting point and overlap.

STEP 6: See **PICTURE 6**.

There are two holes in the metal spindle on the bassinet body so that you can adjust the height of the canopy.

Choose the height you want. Insert the METAL CANOPY POLE (K) into the metal spindle on the bassinet body (I) and line up your chosen hole on the metal spindle with the push button on the canopy pole. Make sure the push button snaps into the hole and the canopy pole is held securely in position.

STEP 7: See **PICTURE 7**.

Grasp the two free ends of the CANOPY FRAME (L) and, holding them together, insert them into the top of the CANOPY POLE (K). Tap gently with a hammer until the ends of the frame are fully seated inside the pole.

Next, place the FABRIC CANOPY (M) onto the CANOPY FRAME (L) and tie it to the frame with the ribbons.

STEP 8: See **PICTURE 8**.

Position the FABRIC BUMPER (N) inside the ROUND BASSINET BODY (I). Secure the tabs on the bumper to the thicker dowels and tie the ribbons, and then tie the remaining ribbons to the thinner dowels.

NOTE: Be sure the bumper is secured and check the ribbons regularly to make sure they stay tied. Loose bedding can be a danger to your baby, so it's very important to make sure the ties and fabric tabs are used properly to secure the bumper.

STEP 9: See **PICTURE 8**.

Put the FABRIC FITTED SHEET (O) onto the ROUND MATTRESS PAD (P) and place the sheet and pad inside the bassinet.

Additional sheets are sold separately!
Contact us or check our web site for more information or to find a retailer.

PICTURE 9

STEP 10: See **PICTURE 9**.

Adjust the skirt and canopy so they are positioned to your liking.

Check ALL OF THE SCREWS, T-NUTS, AND BOLTS to make sure they are fully tightened.

Carefully review the safety information below.

Your **ELEGANCE ROUND BABY BASSINET** is now ready for your newborn!

NOTE: Your bedding and canopy may vary in color, pattern, and/or style from what is shown here.

!! WARNING!! ATTENTION !!

FOR YOUR CHILD'S SAFETY

TO PREVENT SERIOUS INJURY OR DEATH:

This Badger bassinet is a safe place for your newborn baby to sleep until Baby is: 3-4 months old OR 20 lbs. (7.3 kg) OR when Baby can push up, roll over, or crawl - whichever limit comes first.

DO NOT use this bassinet if your baby exceeds any of the age, weight, or activity limits mentioned above. Baby could fall out and be seriously injured.

DO NOT move the bassinet with your baby inside of it.

DO NOT allow children or pets to hang on or pull on the bassinet. It could tip over and your baby could fall out.

DO NOT attach or place toys with strings in or around the bassinet. Strings can cause strangulation or choking.

DO NOT put loose bedding or stuffed animals into the bassinet that could cause suffocation.

Keep bassinet away from stoves, heaters, camp fires, fireplaces, stairs, open windows, window blinds, running or standing water, and any other hazard which could cause injury to your baby.
